U. S. MISSILES PERFORM WELL IN NEW TESTS

By HOWARD BENEDICT

CAPE CANAVERAL, Fla. (AP - The big three of U.S. missilery - Atlas, Thor and Jupiter - effectively demonstrated this nation's rocket retaliatory power in the past two days.

All three were launched on longrange test flights during a 20-hour period. Officials reported all successfully dropped simulated war heads on designated ocean targets

The intermediate range Thor blasted off Tuesday night on a 1,500-mile journey; the Atlas took off on an intercontinental range flight of 4,800 miles Wednesday; and the Jupiter IRBM sped 1,500 miles down the Atlantic missile range Wednesday night.

Nothing New

Successful flights are nothing new to this fiery trio of military blockbusters. They have covered the course many times during lengthy research and development programs here.

The United States has declared all three operational and their current test programs are designed to improve their accuracy and reliability.

Combat-ready Atlases and Thors are poised on launching pads abroad. Jupiters soon will join them to provide America with one of its greatest war deterrents.

Even On Missiles

A few Atlases are stationed at Vandenberg Air Force Base, Calif. Several more Atlas bases are being constructed through the western United States. The missile has a range of 6,300 miles.

Four squadrons of Thors are assigned to NATO troops in England. Three Army Jupiter squadrons are scheduled for early delivery to NATO forces. Two will go to Italy, one to Turkey. Each squadron has 15 of the deadly weapons.

Although many U.S. officials concede this nation trails the Soviet Union in developing powerful space rockets, they believe the two countries are even in the ballistic missile field.

IKE MAY TOUR NORTH INDIA **DURING TRIP**

WASHINGTON (AP) - President Eisenhower may tour part of northern India during his overseas goodwill trip next month.

Authoritative informants said the President wants to see more of India than just the capital of New Delhi during his visit. A fi nal decision will depend, they said, on whether he will have time for

India is one of the nine nations Eisenhower will visit on his goodwill tour beginning Dec. 3.

Eisenhower reported Wednesday he will visit Italy, Greece. Turkey Iran, Afghanistan, Pakistan, Morocco and France, as well as India, during his flying tour,

Some authorities said a second Eisenhower overseas trip someime next spring might be in the works. The President is due to visit the Soviet Union at that time, repaying a visit Soviet Premier Nikita Khrushchev made to the United States last month.

Secretary of State Christian A. Herter is reported to be encouraging Eisenhower to travel as widely as possible during the remaining 14 months he has in office. Herter is reported to believe hat Eisenhower' world-wide reputation as a peaceful man is America's greatest international asset at the present time.

Court Relieves Miami Headache

TALLAHASSEE, Fla. (AP) The City of Miami has been relieved of a three million dollar headache by the Florida Supreme

The court held Wednesday the city won't have to refund that amount to 240,000 traffic violators for fines and costs illegally assessed by the Municipal Traffic

The court agreed with Circuit Judge Robert Anderson that the city traffic court had had no jurisdiction over traffic cases after the countywide metropolitan traffic ordinance went into effect March

But it said Anderson was wrong in holding that the 240,000 violators who had paid fines or forfeited bonds to the city court were entitled to recover their money

Q. Can a woman, who has left her husband with good reason, get half of the furniture or money value without getting a divorce? A. No, (as long as they are

To travel the Dodge City Magic Circle is to run head-on into the still lingering excitement of history, romance and traditions of six-gun western violence - plus Kansas landmarks that date from the visits of Coronado in 1541.

The lurid stories recently detailed for television have brought fame to the roaring frontier town's noted peace officers, Wyatt Earp and Bat Masterson. But the TV writers still haven't hit the jackpot on "Doc" Holliday and Mayor "Dog" Kelly, who are part of the legends of Long Branch Saloon, the Dodge House, Boot Hill and Front Street. Important new facts about ...

MRS. FILBERT'S **MARGARINE** AND **FAMILY HEALTH**

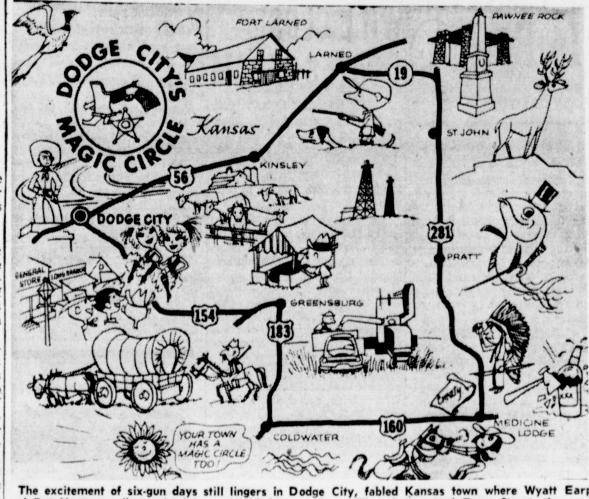

Today some claim that saturated animal fats build up cholesterol in the blood, while unsaturated vegetable oils may help reduce cholesterol. Since evidence is still inconclusive, your doctor is the one to advise you on this.

But you should know that Mrs. Filbert's Margarine is made from only the finest vegetable oils, which contain no cholesterol and are 70% unsaturated. Mrs. Filbert's is enriched with vitamins A and D, is highly digestible, low in salt.

Result: a nutritious, healthful source of quick food energy . . . a broduct you can enjoy with confidence. Compare Mrs. Filbert's to any spread, at any price.

Harvard-educated Tuttle early aught the enthusiasm for old since and rare books from his father. Charles Tuttle Sr., who built up the Rutland business to a point of prominence in the book world. Liked Country

As a member of Gen. Douglas MacArthur's occupation staff classifying Japanese art and cultural properties, the younger Tuttle grew to like Japan, the first foreign country he had ever seen. When library friends in universities back home began writing him to pick up Japanese books for them, he decided he had the start of a business.

His first ventures were aimed almost entirely at the serviceman, and his biggest all-time sellers were "Baby-San" and

"Baby-San's World," by Navy cartoonist Bill Hume and writer John Annarino. They sold around 250,000' copies. "Baby-San" featured the pro-
